## Topics for Consideration

**'SHIFT HAPPENS' – The Business rEVOLUTION and How to Stand on the Leading Edge.** We all know that the days of doing business as usual are over. The pressures of time, technology and the shift in economics are requiring us to re-evaluate everything. But there is a greater shift at hand; one of ideals, values and expectations that challenge every company to EVOLVE into something greater than it has been before. In this revelatory presentation Simone shares the truth about the global shift; the new consumer base that it has produced and how businesses can navigate the change to provide the innovation that will ensure success in the days and years to come.

**20/20 VISION – How to See the 'New Ideas' Before Anyone Else Does** Innovation, Imagination, and Big Ideas will be the driving force in this new era of business. So how do we become 'IDEA PRONE' and encourage our teams, our leaders and our employees to engage their creative best? How do we bring innovative solutions and dynamic problem solving to all aspects of business? In this energetic and audience participatory presentation Simone explains how we can all activate our Innovation, Imagination and Intuition to reveal new solutions and to generate new ideas and that will rEVOLUTIONIZE how we do business and how we live our lives.

**ANSWERING THE CALL – Business and the Heroes Journey.** The people who lead in business or who chose the path of Entrepreneurship are a brave and unique bunch. Sometimes the obstacles, fears and setbacks that we face in business can seem overwhelming and can challenge our dedication to the mission. In this 'brilliantly inspirational' presentation, Simone delves deeply into the potential of our own individual journey to reveal the 'Mythical power' of how our experiences in business reveal a greater and more personal purpose. She shows us how to value our untapped strengths, rediscover our purpose and recognize our courage so we realize that ultimately it is not the destination but rather; who we become personally as we 'courageously answer the call' of our professional passions; that reveals our ultimate success.

**THE NEW MIND OF MONEY – Training your Brain to be 'Money Wise' in Business and in Life** Did you know – that unlike language, memory or vision, that there is no *specific* place in the human Intelligence system that processes the concept of money? And because we are often times stressed and worried about money, (personally or professionally) our ability to make wise financial decisions can be reduced even more. In this entertaining and educational presentation, Simone reveals the scientific realities of how Money affects our minds and nervous systems – and how 'Money Stress' increases the chances of us being 'Money Stupid'. Simone teaches us how to 'Train the Brain' to be Money Wise, and provides tools to reduce financial stress and activate our Intelligence to come up with more efficient and profitable ideas regardless of what the economy is doing.
